OCTOBER 23 & 24, 2021 @ IVY CREEK

VOICES FROM THE LAND invites our creativity and play to interact with natural science, culture, language, many wisdom traditions, and each other—and most importantly, to pass it on. Its inventor, gifted educator Erik Mollenhauer, shared his visionary nature education around the world and with us at Ivy Creek in 2017. In 2018, **VOICES FROM THE LAND** won state recognition from the Virginia Master Naturalists as **PROJECT OF THE YEAR** for its effectiveness.
